Index to Volume 41, 1978

Page numbers preceded by '(P)' refer to the summaries of papers at the Meetings of the Society of British Neurological Surgeons.

Abductor pollicis longus muscle, number of motor units in, estimation of, 794
Aborigines from the Northern Territory of Australia, peripheral nerve biopsies in the diagnosis of leprosy in, 874
Abscesses, brain, in Northern Ireland, 30 year community review, 1043
Abscesses, cerebral, mortality in England and Wales, 1964–1973 (P), 1053
Acetylcholine receptor antibody in myasthenia gravis, determination, 394
Achondroplastic dwarfism and progressive tetraparesis in a 15 year old girl (P), 1053
ADAMS, C. B. T. *See* FABINYI, G. C. A., and ADAMS, C. B. T.
ADAMS, C. B. T. *See* FEARNSIDE, M. R., and ADAMS, C. B. T.
Adenomata, pituitary, conservative removal, justification, 283
Adrenaline and noradrenaline concentrations in plasma in subarachnoid haemorrhage, clinical significance, 113
Affective processing, hemispheric assymetries of, determined by Minnesota Multiphasic Personality Inventory, 470
Afferent responses, muscle, to tendon taps (L), 770
Afferent responses, muscle, to tendon taps, effects of variations in fusimotor bias, 226
Afferent responses, muscle, to tendon taps, recorded with transcutaneous electrodes, 220
AGARWAL, G. C. *See* GOTTLIEB, G. L., AGARWAL, G. C., *et al.*
Age, temperature, and disease, effects on the refractoriness of human nerve and muscle, 65
AGHAI, Z. *See* LOTFI, J., NIKBIN, B., *et al.*
Air embolism, in sitting position, in neurosurgery (P), 186
AKÇALI, D. *See* ERTEKIN, C., and AKÇALI, D.
ALA, F. *See* LOTFI, J., NIKBIN, B., *et al.*
ALBA, A. *See* GINZBURG, M., LEE, M., *et al.*
ALBERCA, R. *See* GIL-PERALTA, A., RAFEL, E., *et al.*
ALBERTS, M. *See* TERRENCE, C., and ALBERTS, M.
Alexia without agraphia associated with right occipital lesion (L), 1152
ALEXOPOULOS, G. S., KOCSIS, J. H., and STOKES, P. E.: Increase in CSF protein in association with ECT, 1145
ALLEN, I. V., SWALLOW, M., NEVIN, N. C., and MCCORMICK, D.: Clinicopathological study of Refsum's disease with particular reference to fatal complications, 323
Alpha frequency EEG rhythm in coma after cardiac arrest, prognostic significance, 840
AMINOFF, M. J., DEDO, H. H., and IZDEBSKI, K.: Clinical aspects of spasmodic dysphonia, 361
AMINOFF, M. J., EHSANULLAH, R. S. B., and TURNER, P.: Uptake of dopamine and 5-hydroxytriptamine by platelets of patients with Parkinsonism, 589
Amnesia, verbal learning and picture recognition in, 278
Amputation, limb, partial, long-term effects, 425
Amyloid polyneuropathy, familial, Portuguese type, electroneurophysiological studies, 847
Anal reflexes, electromyographic study, 813
ANDERSON, J. M., ROBERTSON, A. J., BROWN, R. A., SLIDDERS, W., and SWANSON BECK, J.: Prognostic grading of astrocytomas using an image analysing computer (P), 187
Aneurysm surgery, morbidity and mortality after (P), 1052
Aneurysms, anterior communicating artery, with infarction, studied by recurrent CT scanning (P), 1052
Aneurysms, coincidental with tumours of pituitary origin, 972
Aneurysms, ruptured, intracranial, prolonged antifibrinolysis for (P), 188
Aneurysms, ruptured, management of the older patient with (P), 1052
Aneurysms, ruptured, middle cerebral artery, surgical treatment of (P), 188
Aneurysms, suprasellar, large, imitating pituitary tumour, 83
ANGEL, R. W., and LEWITT, P. A.: Unloading and shortening reactions in Parkinson's disease, 919
Angiographic findings correlated with the ischaemia of head injury, 122
Angiography, no pathological circulation at, in cerebral arteriovenous malformations, 1057
Angiosarcoma, metastatic, with von Recklinghausen's disease, neurofibrosarcoma of the radial nerve in, 474
Ankle, sinusoidal oscillation of, for evaluating spastic patients, 32
Ankylosing spondylitis, radiculopathy complicating, 569
Anomia, category-specific naming preservation in, 571
Anosognosia, 548
Anterior communicating artery aneurysm with infarction, studied by recurrent CT scanning (P), 1052
Anterior rhizotomy for spasmodic torticollis, a rare complication after, in cervical spondylosis (P), 185
Antibody, acetylcholine receptor, determination in myasthenia gravis, 394
Antibody, circulating, to myelin basic protein in relapsing-remitting multiple sclerosis, evidence for and against, 1131
Anticipation in myotonic dystrophy, significance of incidence, severity and time-course of motoneurone dysfunction for an understanding of, 882
Anticonvulsants, effect on plasma testosterone and sex hormone binding globulin levels, 913

Anticonvulsants, metabolism of immunoglobulin A, lymphocyte function, and histocompatibility antigens in patients on, 307
Antifibrinolysis, prolonged, for ruptured intercranial aneurysms (P), 188
Antigen, histocompatibility, frequencies and immunological abnormalities in IgA deficiency in epilepsy, 593
Antigen, histocompatibility, immunoglobulin A and lymphocyte function, metabolism of, in patients on anticonvulsants, 307
Antiproteinase drugs for murine muscular dystrophy, 404
Antisyphon valve in the prevention of functional complications of shunt system (P), 1049
ANZIL, A. P. *See* TOKYA, K. V., BIRNBERGER, K. L., *et al.*
Aphasia, dissociated disorders of speaking and writing in, 556
Aphasia, linguistic correlates of pantomime recognition in, 564
Apnoea, periodic, in erect posture in Shy-Drager syndrome, 980
Arachnoid cyst, calcified congenital, with heterotopic neuroglia in wall, 88
Arachnoiditis, intraspinal, and hydrocephalus after lumbar myelography using methylglucamine iocarmate, 108
Arachnoiditis, spinal, changing pattern of, 97
ARENSBURG, B. *See* TAITZ, C., NATHAN, H., *et al.*
Arm amputation, partial, long-term effects, 425
Arnold-Chiari malformation, surgical relief of progressive upper limb paralysis in, 433

Astrocytomas, prognostic grading by image-analysing computer (P), 187
Ataxia and mental symptoms in chronic brainstem encephalitis, 516
Atlas, solitary osteochondroma of, cervical cord compression by, 479
Atomic absorption spectrophotometry, flameless, determining increased plasma levels of lead in amyotrophic lateral sclerosis compared with control subjects, 389
Atrial myxoma, neurological complications, metastases, and recurrences, 1119
Audioverbal memory defect in a patient with episodic howling and violent motor behaviour, 366
Aural comprehension and pantomime recognition in aphasia, 564
Autogenous sural nerve grafts, neurophysiological studies, 677
Autonomic nervous system disturbances measured using ECG for analysis of heart rate variations in multiple sclerosis, 417
AXELROD, T. *See* COHN, D. F., AXELROD, T., *et al.*
Axial tomography, computerised, diagnosis of subdural haematoma by, using xenon inhalation for contrast enhancement, 370
Axial tomography, computerised, in the investigation of hydrocephalus (P), 1050
Axilla–Erb's segment, median and ulnar nerve conduction determinations in, 444
Axonal conduction through demyelinated plaques in multiple sclerosis, computer simulations of facilitation by short internodes, 408
Axonal conduction, transient blocking in uraemic neuropathy, evidence for or against, 525

Babinski sign and the pyramidal tract syndrome, 865
Back pain, radicular injury in, clinical and electrophysiological appraisal, 303
